## Diversity at place

- nursing profession does not have a status of recognized scientific profession / only secondary school level
- new country – new political leaders – young democracy / lack of transparency and knowledge about cooperation
- the awakening of civil society and the beginning of the serious work / definition of scope / of nursing associations
- chamber – association – union ➔ defining the roles!

As one of the way forward...

# TEAMWORK!

There is no "I" in "TEAMWORK".

## Cooperation and consenzus

### Obstacles overcoming

- ➡ proper communication at targeted audience
- ➡ KEY : relationship with main governmental bodies and identification of those
- ➡ learning - international experience
- ➡ transparency and safety (no corruption policy)
- ➡ PATIENT ADVOCATE !
